Skills

Teamwork
Communication
Good at English

Hobby

Reading book, Building personal coding projects

Target

As a high school student passionate about STEM, I aim to develop strong skills in data analysis, software development, and teamwork. I am eager to contribute to real-world projects, broaden my knowledge of technology, and build a solid foundation for future studies and career development.

Education

High School Program 2023 - 2026

Nguyễn Chí Thanh High School

GPA in Math: **8.8/10**
GPA in Information Technology: **9.8/10**
Currently attending advanced English classes.
Participated as a **studentresearcher** at **NCT STEMists**, contributing to STEM-related research projects and initiatives.

Project

How to love Viet Nam? -

HTML, CSS, JavaScript, Python, Flask, Firebase, Canva

Developed a cross-platform E-learning app with AI chatbot integration, 360° videos, and interactive ashcards to promote Vietnamese history and culture.

EasyTech -

React Native, JavaScript, Firebase

Built a mobile app for seniors with voice search, AI assistant, daily task tracking, and safety features to support digital accessibility.
